This is not intended to be an exhaustive list and The City of Gig Harbor makes no recommendation whatsoever regarding any private contractor who performs drainage system maintenance.

It is wise to obtain at least three bids. When requesting service from a contractor, provide the contractor with a copy of the inspection report and site map. The information it contains will save time and make it easier for the contractor to prepare an accurate bid estimate. The contractors may contact the City of Gig Harbor Stormwater Program at (253) 853-2646 if they require a clarification of the report.
